Neil Snyder  
President  
Veterans Engineering Inc.  
15739 Crabbs Branch Way  
Derwood, MD 20855

Dear Neil,

I would like to express my appreciation for the support Veterans Engineering has provided to our DMV Modernization program.

At the outset VE's leadership in defining the architecture and underlying platforms put the project on a success trajectory. Throughout the execution of the project VE has continued to provide architectural leadership, program management, technical management and requirements analysis to ensure the modernized system will meet the needs of Idaho's citizens for years to come. Support of the system within the business is a remarkable accomplishment for the project – support of the system by the business is unprecedented.

From all Idahoans – thanks for a job well done!

Sincerely,

ALBERTO GONZALEZ  
Administrator  
Division of Motor Vehicles
